Where we would like feedback:

- What about our specific findings do you find most/least interesting?
- What else would you like to see?
- Do you think we're going in the right direction? Is there a better framing for the paper?

Fact 1: Participation Gaps Differ by Distribution Channel

Fact 1: Participation Gaps Differ by Distribution Channel

Fact 2: Channels are Weak Substitutes

(a) Health

(b) Term Life

Fact 2: Channels are Weak Substitutes

(a) Policy Death

(b) Policy Loss

Fact 3: Distribution Channels Bundle Coverages in Distinct Ways

Employer-Distributed

● Health ● Life ● Disability & Accident ● Other — cross-family bundle — within-family bundle

Fact 3: Distribution Channels Bundle Coverages in Distinct Ways

Bank/Retail-Distributed

Fact 4: Bank/Retail Product Shelves are Diverse (Life Insurance)

Fact 5: Bank/Retail Products Have the Highest Loadings

(a) Term Life

(b) Accidental Death

Thanks :)
